

CSE-350 (Project Work)

What2Dos

Remember the primary requirement -

"Your project outcome must be a software solution"

**What are
your goals?**

Define your goals/objectives and the scope of your work so that it will become easier to fulfil the primary requirement. You must enlist at least 6 distinctive features/services for your proposed project work.

**How do you
complete
your task?**

Prepare an implementation timeline by Listing-Out the Milestones, Involving the required Stakeholders, Defining your evaluation/performance Metrics, Assigning team roles, etc.

**When will you
demonstrate your
performance?**

To get high score, you must showcase your achievements weekly. So, make an appointment to get evaluated.
