

# CSE 376: Assignment on Report Writing

---

## Instructions

In this assignment, you need to submit a report in Latex based on a project or a short research that has been carried by you. It could be possible that your project was done by a group, however, you need to write the report independently.

The report should have the following items:

- Title page
- Abstract
- Introduction
- Problem Definition
- Background/Related work
- Methodology
- Result/Analysis/System Description
- Conclusion
- References

It is recommended that you add some figures and tables as necessary in the report.

## Submission Guideline

You need to prepare the report in LATEX. Please submit the .tex and .pdf file along with other necessary files. Please zip all the files in a zip folder and name this by your registration number.
